DAILY NEVADA STATE JOURNAL.

VOL. 18. RENO, WASHOE COUNTY, NEVADA. SUNDAY MORNING, JANUARY 14, 1883. NO. 86.

PRIZE BOOKS FOR SUBSCRIBERS.

The Weekly Journal's Clubbing Arrangement with the Cincinnati Commercial.

Having made arrangements to club the WEEKLY JOURNAL with the Cincinnati Weekly Commercial, we announce that we will furnish the WEEKLY JOURNAL and the Cincinnati Weekly Commercial, a large 8-page, 56-column family newspaper, printed from large, clear new type, and furnishes more reading matter for the money than any other newspaper in the county, the issue of each week containing over twenty-two square feet of printed matter, and is not surpassed for news, business reports, literary and select reading, one year for $3 50, and will give as a free prize to each yearly subscriber under this clubbing arrangement any one book he may select from the following famous works—postage paid and free of all cost—the books being unabridged, beautifully printed on good paper in paper covers: Tennyson's Poems; The Arabian Nights: The Narrative of the Jeannette Arctic Expedition, by Lieut. Danenhower: The Mill on the Floss, by George Eliot; Wood's Natural History for Boys, (300 illustrations); East Lynne, by Mrs. Henry Wood; Vennor's Almanac for 1883; The Swiss Family Robinson; A Treatise on the Horse and His Diseases, by Dr. B. J. Kendall; The Woman in White, by Wilkie Collins; History of the Kingdom of Ireland; Waverly, by Sir Walter Scott; A Brave Lady, by Miss Mulock; The Bible Dictionary; Lady Audley's Secret, by Miss Braddon.

It will be noticed that our selection of prizes covers an extraordinary range and variety of the brightest and best books.

Free specimen copies of the Cincinnati Weekly Commercial may be obtained by addressing M. Halstead & Co., Proprietors Commercial, Cincinnati, Ohio, and free specimen copies of the JOURNAL can be obtained by addressing C. C Powning, Proprietor JOURNAL, Reno, Nevada.

Send postal card asking for specimen copies.

Cash System! Cash System!

Since my first announcement that I proposed to place my business on a cash basis on Jan. 1st, I have received much encouragement from many of my customers. They appreciate the fact that it is a fair system, as all pay cash or its equivalent; they do not, as under the credit system, have charged to them the loss suffered by some debtor who has "skipped" his account, and frequently the country. Also the cash system has harmonious influences, there being fewer circumstances to create difficulties between the dealer and his customers, such as dunning, refusal of credit, sueing, etc. I have in reserve a good proof that it pays to buy for cash. It is a price list, which will be out January 1, 1883. Send or call for one.

Respectfully,

JERRY SCHOOLING.

Fine Job Work.

The JOURNAL job office has just received a large and fine stock of paper, cards, inks, etc., for job printing and is prepared to take orders for every description of work in the printing line. Only skilled workmen are employed in the job room and no inferior work is allowed to leave the office. Compensating prices are charged for every job and satisfaction guaranteed. Call and examine our specimens and leave your orders.

OUNG MEN.

WHO may be suffering from the effects of youthful follies or indiscretions, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. **Dr. Spinney** will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty, who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, the color will be a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration to the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sundays from 10 to 12 A. M. Consultation free. Thorough examination and advice, $5.

SUNDAY..... ....JANUARY 14, 1882.

HOME ECONOMY.

One of the first retrenchment measures the Washoe delegation in the Legislature should attend to is the home question of salaries for our county officers. The Sheriff's salary should be $200 per month. The Clerk's office should not cost more than $200 per month. Let the Clerk have that and pay out of it for such help as he may need. The salary of the Auditor should be placed at $150 per month. The Treasurer should be reduced to $100. The District Attorney can be put at $100. The sum of $1,500 is enough for the Assessor, especially as the county pays for two deputies. The Commissioners can well afford to do their work for $300 per annum each. The Co. School Supt. ought not to cost to exceed $200 per annum. These reductions would save $5,400 per year. It is worth saving.

Statistics of railroad building in this country in 1882 show that 10,821 miles were built during the year. This approximates very closely to the estimate made early in the year by the Railway Age, which stated that though the figures for the first few months indicated a total of 15,000 or 20,000 miles, the close of the year would probably show 10,000 miles built. These figures are the largest for any year, exceeding those of 1881 by 1435 miles, and nearly equalling the entire construction for the five years from 1874 to '78. Of course the greatest amount has been in the Western States. Every State shows some increase except Rhode Island, though Connecticut built but two miles and all New England only sixty. Iowa leads with 953 miles; Texas built 817, while the Northwest, including Iowa, Wisconsin, Minnesota, Nebraska, Idaho, Montana and Dakota show nearly 3,100 miles, or nearly a third of the entire construction in the country. Even with these surprising statistics it is not impossible, nor, perhaps, improbable that they may be equalled or even exceeded in 1883. New railroads are being incorporated rapidly and though much increase cannot be looked for in the East, the great States and Territories of the far West have practically but just begun their development, and a rapidly increasing population will call for thousands of miles of railroads in regions little known to-day.

Rev. Mr. Talmage holds to the old heathen opinion that "whom the Gods love die young." In a late sermon at the Brooklyn Tabernacle, "The blessings of an abbreviated earthly existence," as opposed to those of longevity, were pictured by the preacher, who spoke from the words of Isaiah, "The righteous is fallen away from the evil to come." He thought too much time was spent in panegyries of longevity, and too much sympathy for early death. An abbreviated existence makes life more compact. A person who dies at five years of age, gets through his day's work at 9 o'clock; one who dies at forty years, at 12 o'clock; at seventy years, 5 P. M., and one who dies at ninety has to toil up to 11 o'clock at night. The number of men who fall into ruin between fifty and seventy years of age, was simply appalling. It were better if they had died thirty years before. The sooner a man died the sooner he was taken off the defensive, and it was folly, Mr Talmage thought, to regret leaving the shanty of earth for an Alhambra in Heaven.

During the year just closed a very large number of notable and distinguished persons finished their earthly careers. Art, science and literature have lost some of their most brilliant lights and the church mourns the loss of many of the most eminent divines. Among the more prominent figures now gone are Darwin, foremost among modern scientists; Garibaldi, the Italian patriot; Longfellow and Emerson, the two great leaders in American literature; Prof. John W. and Henry Draper, Bishops Scott, Wightman and Paine, of the Methodist Church, Rev. Drs. Dewey and Bellows, of the Unitarian Church, Bishop Lynch, of the Catholic Church; Dr. Tait, Archbishop of Canterbury, the Dean of Carlisle, Dean Wellesley and Dr. Pusey; Profs Jevons and Balfour, English scientists; Anthony Trollope; Thurlow Weed, the veteran journalist, besides several statesmen and military heroes in this country and noted literati, political leaders and rulers in the Old World.

The President will doubtless have a hard time to make up his mind as to who shall constitute the Commission authorized by the civil service reform bill just passed. Every section of the country desires a representative, and as usual the South is not backward in pressing her claim.

Unentered Public Lands in California.

A small folio circular has been issued by the Immigration Association of California, describing the public lands of the State. It gives the information following: Of the 98,500,000 acres, the area of California, there are 43,795,000 acres of unentered Government land. Of this latter class 16,295,000 acres are suitable for mining or lumbering, 21,500,000 for agricultural purposes, and the remaining area of 6,000,000 acres is water, or steep and rocky or unproductive land in many counties has been listed by the Land Officer of the association with the following result: In San Luis Obispo county, 450,000 acres; Monterey, 600,000; San Benito, 250,000; Santa Clara, 150,000; Mendocino, 1,500,000; Shasta, 1,500,000; Lassen, 2,700,000. Total, 7,545,000 areas. Other counties, it is estimated, contain unoccupied lands about as follows: Humboldt, 1,500,000; Santa Barbara, 150,000; Ventura, 150,000; Kern, 2,000,000; San Bernardino, 5,000,000, Los Angeles, 300,000; San Diego, 2,500,000. A general description of each county is given. In Lake and Mendocino counties there is plenty of timber and the country is suitable for grazing. The foothill region of the State is described at some length. It was estimated by the late B. B. Redding that this region embraces a tract of country 350 miles long by 20 wide, containing 4,480,000 acres. The line is from Redding to Sumner, embracing the towns of Oroville, Colfax, Grass Valley, Sonora, Mariposa and other smaller places. In this region there are nearly 3,000,000 acres belonging to the Government. All of it is timbered and there is plenty of water.

Forest Devastation.

The New York Post says of Puget Sound mills: The policy which has devastated the forests of Michigan, Wisconsin and Minnesota, is sweeping those of the Northwest. The monopolists of San Francisco, as well as those of Chicago, grow rich at the expense of the public. Meantime, the forests perish and their destruction is accelerated by the circumstance that by placing a tariff duty on lumber it compels the American people to pay a premium on the devastation of the country.

The New York Commercial says: President Arthur directed attention to the fact that our forests were disappearing at an alarming rate, but this matter seems to have escaped the attention of the Tariff Commission, who, while they were suggesting a tariff revision, might have recommended changes by which the prohibitive duties on lumber would have been reduced and the country enabled to draw upon the vast forests of British North America. If Grant succeeds in negotiating a commercial treaty with Mexico we shall be enabled to take advantage of the vast supplies of valuable timber in Durango, Sonora, Sinaloa, Hidalgo, Chihuahua and other Mexican States.

Idaho Territory and Nevada.

Senator Jones and Representative Cassidy have had frequent conferences of late in regard to the proposition to annex Idaho Territory to Nevada, except four counties, the residents of which are said to favor being annexed to Washington Territory. Neither of the gentlemen propose to do anything further than to agitate the subject this session, though they will both introduce bills next session looking to the annexation. It is thought the matter will be talked about during the sessions of the Nevada and Idaho Legislatures, and that both will be benefited by the proposed annexation. Cassidy says he wanted two of the counties of California annexed to Nevada, and would have insisted on it had not Berry introduced a bill to gobble up about the whole of Nevada and annex it to California.

The Albion.

The President of the Albion in his report, states that the litigation with the Richmond Company has cost the immense sum of $116,000, and other legal expenses for last year were $56,000. The works are insured for $61,000, and the total liabilities over and above all assets are but $78,000; that owing to the erection of the new smelting works $17 per ton is saved in the working of ores; or for 2,500 tons per month worked, a saving of $42,500 has been made.

As to the State tax levy for 1883-4, Controller Hallock thinks the present rate (90 cents) cannot be reduced with safety. The Reno JOURNAL entertains a different opinion, and does not believe it necessary for the rate to exceed 75 cents on the one hundred dollars taxable property. It would seem that the Controller is the best able to judge of this matter.—Austin Reveille.

At 75 cents nearly $200,000 would be collected. That sum ought to be sufficient to pay the current expenses for either of the two ensuing fiscal years.

The Michigan joint Legislative caucus has nominated Byron G. Stout for United States Senator. Glad he was stout enough to win it.

TUSCARORA MINES.

Ore Encountered in Belle Isle—Improvement in Navajo—Drifting for the Ore Body in Argenta.

The Grand Prize and Argenta mines are now in shape to be prospected. The knowledge of that fact is awakening renewed interest in those mines. The News says attention appears to center mainly on Argenta, as the existence of an ore body there is an admitted fact. The east drift on the 700 level, run jointly by the Grand Prize and Argenta companies, is expected to reach the ore deposit within six weeks when it will be at once opened out.

An improvement is noted in the Navajo. The ore vein is larger and better defined on the 450 level than the level above and continues to improve as it is followed down.

Work has been resumed at the North Belle Isle; all necessary repairs have been completed and everything progresses as usual; as is also the case at the Independence.

In the Belle Isle some good ore was encountered the past week on the 350 level and the prospect is excellent for further development.

RIVER IMPROVEMENT.

The Carson Appeal says:

Congressman Cassidy, who declared in Congress that there were no rivers in Nevada, evidently had not studied the geography of his State as well as Assemblyman Howell, of Lincoln, who has introduced a resolution to memorialize Congress to grant an appropriation of $125,000 to improve the Colorado river so as to render it navigable all the year round. The Colorado river runs along the southeast portion of Nevada, marking its boundary line and washing 210 miles of its borders. In the Spring vessels of 200 tons burden go up as far as Reveille, 240 miles north of where the river finally leaves the State near Fort Yuma. By the expenditure of the amount asked for, the river can be made navigable all the year round. The stream comes from the Gold Basin District, which is rich in copper, gold and silver and at present its copper mines are very productive and promise in the near future to yield enormously. This new country will, if properly developed, add millions of dollars to the wealth of the Pacific Coast, and Congress ought to listen to the call from Nevada and grant the appropriation. It is to be hoped that Mr. Cassidy, having had his eyes opened on the question of Nevada's streams, will lend his assistance to driving the wedge just entered by Assemblyman Howell.

The Old Soldier's Modest Request.

Private Dalzell wrote to General Sherman lately, inclosing an article on his candidacy for President, and asking him if he was a candidate. He received the following reply:

DEAR DALZELL: Yours at hand with inclosure received. Please do not ask me to write any more on the subject. It gives me a twinge of pain every time I see my name in print on any subject other than my pure official work. I am not and never will be a candidate for any office, and think I can look ahead with some composure to passing the evening of my life in comparative ease and repose in St. Louis, Missouri. Surely in this land of freedom that much can be conceded an old soldier. With respect, your friend,

W. T. SHERMAN.

BREVITIES

New moon.

Stocks were a shade off yesterday.

C. J. Brookins talks of an Eastern trip soon.

Hon. Thos. Wren, of Eureka, was in town yesterday.

United States Marshal Corbett was in town yesterday.

Standard dollars dated 1883 are already in circulation in this State.

George Wilson has already put up between three and four hundred tons of ice.

The Wine House boasts a new lamp, with nearly all of the colors of the rainbow.

Remember to-morrow evening is the only chance this season to witness "Esmeralda."

"Curly Bill" is going to leave the Comstock and go into the livery business in San Francisco.

Treadwell, late bookeeper for Knowles & Bainbridge, last night departed for Portland, Oregon.

The Wine House barber shop is being fitted up in fine style—probably for Nick Hammersmith.

Smokers, and those who use the "weed" in any shape should go and see E. Meyer's new goods. *

A fire, on Friday, at the residence of F. Levy, destroyed dresses to the value of $600 belonging to Mrs. Levy.

This is the day you ought to take a bath, or get shaved, or have your hair cut. Go to Coleman & Pechner's. *

Assemblyman Bell, of Nye, did not return with the excursionists. He remained over to take a look at our suburbs.

Coleman & Pechner's bathing rooms are conveniently located and provided with every necessary convenience. Take a bath. *

"Esmeralda" ran uninterruptedly for one year at the Madison Square Theater before its traveling season was inaugurated.

The Board of School Trustees advertise the two rear rooms of the old school house for sale at public auction, January 23d.

The Republican joint caucus of the Illinois Legislature has nominated Governor Shelby M. Cullem for United States Senator.

"Esmeralda" was nurtured and raised in the theatrical cradle which rocked "Hazel Kirke," and has won herself a most enviable place beside her elder sister.

Carson has its Lone Mountain; Virginia its Washoe Club, Reno its Merchants' Exchange; Eureka its Mining Bureau; Elko its University, and Tuscarora its Nob Hill.

Lovers of billiards will find every accommodation at Chase & Thyes' billiard parlors, Virginia street. The tables are first-class, and everything about the place is kept in the best of order. Behind the bar are kept the choicest wines, liquors and cigars for the accommodation of guests. *

Matinees of "Esmeralda" in New York were conspicuous for the large percentage of ladies, young and old, in the vast audiences The play appeals very strongly to the fair sex, yet is not altogether unmindful of the sympathies of the attendant lords of creation, limited in number though they be.

School Changes.

The school trustees have decided to remove two classes to the old school house. They believe it will be for the best to place all the primary scholars there. Miss McNeely's class will be removed to-morrow, and Miss Wilson's will follow on Tuesday. Another class will be made up from those remaining and Mrs. White has been engaged to teach it.

In Jail.

Fitzgerald, alias Major Wilson, etc., is now in the Washoe county jail, having been brought up from Wadsworth last night by Constable Lewis, Justice Pierson having held him to appear before the Grand Jury on the charge of forgery preferred against him.

Prices Raised.

Hotel and restaurant keepers at Candelaria have raised the price of board to $9 per week, or seventy-five cents per meal. The high prices of meats and vegetables is assigned as the reason for the raise.

A Baggageless Train.

The Chronicle says that on last Friday evening the train which left Virginia for Reno did not have a single article of baggage on board. This is the first time the baggage car ever left the Comstock empty.

MASON VALLEY.

A Flourishing Agricultural Community—The People all Comfortable and Fast Growing in Wealth.

The Enterprise says: "But little is known of the great agricultural resources and growing prosperity of Mason Valley, the most fertile of all Nevada's valleys, beyond a limited circuit. Unlike most of the valleys throughout the State, the soil is a rich sandy loam or adobe, with scarcely a stone large enough to throw at a bird. Its entire length is about forty miles, north and south, with an average width of about six miles, being ten miles across its widest points. The best land is settled and under cultivation. Pretty little farm houses dot its face, nearly all surrounded by trees of from two to twelve years growth. Many of the houses are spacious, with roadways leading to them from the main road, on either side of which are trees, while the entire farm is well defined by trees planted at regular intervals around it. Among the most noticeable of these are the farms of W. B. Sanders, B. H. Reymers and N. H. A. Mason. The latter intends to build a fine large house soon on the site of his present residence. A cheerful, home-like appearance is noticeable on every side.

IRRIGATION, WELLS, ETC.

The Walker river, the banks of which average a little higher than the valley on either side, runs nearly the entire length through the middle of the valley and furnishes an abundance of water for irrigation by dikes. But little irrigation is required, however, as good, pure water can be struck almost anywhere at from three to ten feet below the surface, therefore the surface is easily kept moist. Every house has its own well—some, two or three—while the greatest depth of any is less than twenty feet.

HAY, GRAIN, CATTLE AND HORSES.

The grain yield will average over thirty bushels per acre, but owing to the greater demand and more ready sale for hay, the majority give their attention to its production. In some localities five tons of good alfalfa hay have been cut from an acre, but the average is about three tons. The hay is principally alfalfa. Stock raising is also an important industry. About 3,000 head of beef cattle have accumulated, and are now being fed in the valley by N. A. H. Mason for Lux & Miller, of San Francisco. There are also bands of fine horses, some of them "blooded stock," owned by residents. The valley has a population of about 1,200, and supports five schools, all of which are running at present."

LEGISLATIVE EXCURSION.

The Nevada Solons at the New Insane Asylum.

In accordance with the invitation of the people of Reno the Legislature and many State officers and subordinate attaches of the State Government yesterday came down from Carson on a special train and visited the Asylum and State grounds. Every nook and crook was thoroughly inspected, and the visitors seemed well pleased with the sights spread out before them. Supt. Dawson had a nice lunch set out in the Recreation Room to which all of the guests sat down. As far as a JOURNAL reporter ascertained every visitor expressed delight with the workings of the institution and wondered how the Asylum and Superintendent's residence were constructed for $63,248 50. As the train left the grounds Supt. Dawson was complimented with three cheers, and at 3:30 the return train pulled out of the Reno depot for the Capital City.

In Favor of Annexation.

The Carson Tribune publishes this funny piece: "The people of Washoe City, Franktown, and all along the line of the V. & T., from the big canyon north of Washoe to Mill Station, are in favor of annexing that part of Washoe county to Ormsby, and so the chances are that the representatives of that section will not oppose Senator Parker's bill.

STATE FAIR.

The Austin Reveille's Timely Suggestions for the Future.

The Austin Reveille, of Thursday, last, says "The Nevada State Fair is under a cloud, caused by a succession of bad seasons. It seems fated. Every week that the Fair is advertised for is sure to be raining and cold. This has occurred for the past four or five years, and as a consequence the Society has lost money each time. Last Fall they tried to save themselves by running the Fair into the following week, but only succeeded in saving their distance, so to speak. The Society is some $17,000 in debt in consequence of all this ill luck. The track and pavilion are both mortgaged for about all they are worth. Two years ago a move was made to have a bill passed allowing Washoe county to issue bonds to clear this indebtedness and thus place the society on a solid footing again, but somehow it failed to pass. The citizens of Washoe seemed perfectly willing to have the bill passed, realizing the value the Fair was to them from a pecuniary point of view, for they reap an abundant harvest from the crowd of strangers who congregate there during Fair week. But the State itself has a great interest in its welfare, or at least should have. It matters not if the Nevada State Fair hardly equals some Eastern county fairs, it is the best our sparsely-settled State can produce, and is but the beginning of greater things to follow. If there is no other way out of the dilemma the Society finds itself in, it might be practicable for the State to take charge of it as it has in California. Something should be done during the present session of the Legislature, to ensure another Fair, for the people of Reno have subscribed liberally for several years past, and it is hardly fair to expect them to go down into their pockets again, even if they are disposed to do so, which we doubt."

To Consumptives.

"Golden Medical Discovery" is a concentrated, potent alterative, or blood-cleansing remedy, that wins golden opinions from all who use it for any humor, from the common pimple, blotch or eruption, to the formidable scrofulous swelling or ulcer. Internal fever, soreness and ulceration, yield to its benign influences. Consumption, which is such a scrofulous affection of the lungs, may, in its early stages, be cured by a fee use of this God-given remedy. See article on consumption and its treatment in Part III of the World's Dispensary Dime Series of pamphlets, costs two stamps, post-paid. Address World's Dispensary Medical Association, Buffalo, N. Y.
